### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:

The instant process is novel and unobvious over the prior art of record. The novelty of the instant process lies in the use of a diol as a solvent. The prior art does not teach or discloses the use of a diol solvent in the formation of a cyclometallated iridium compound. Further, Applicants have shown, by way of examples, unexpected results in which the percent yield of the cyclometallated iridium compound increase substantially when a diol is used as a solvent when compared to other solvents in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
